

Please support New Jersey in its strict Do No Call law. I have paid to have an unpublished number and yet was previously called repeatedly by telemarketers. My caller-id logged a total of 97 calls in a 3 day period that were associated to telemarketers. Some of these as early as 7 AM on a weekend. Since signed up for the Do Not Call List I have not received 1 unwanted telephone call.

I fully support NJ in its legislation and urge you to do the same.
